Wallace has a degree in Optical Engineering from the University of Arizona as well as a MBA from Drexel University. Wallace has been working in the Photonics business for over 20 years in roles from Design Engineer through Business Development and Sales Management. Currently, Wallace is a Product Manager for Coherent. As Product Manager, he guides a team that is charged with a product line contribution as a business unit. This extends from increasing the profitability of existing products to developing new products. He builds products from existing ideas, and helps to develop new ideas based on his industry experience and contact with customers and prospects. He possess a unique blend of business and technical savvy; a big-picture vision, and the drive to make that vision a reality. Wallace spends time in the market to understand its problems, and find innovative solutions for the broader market.
