Tom Brennan

President

Artemis Vision

999 Vallejo Street #T

Denver, Colorado USA

Telephone: +1 (303) 832-1111

Email: tbrennan@artemisvision.com

Tom Brennan is an Advanced Level Certified Vision Professional working in the industrial machine vision and image processing software market. He is the founder of Artemis Vision. The team at Artemis has grown significantly since its founding and currently builds machine vision based medical devices as well as serving many industrial accounts across North America with systems to verify their products. Tom has successfully delivered medical imaging devices, constructed pharmacological verification systems, and helped design the machine vision vehicle detection algorithms implemented as part of the DARPA Urban Challenge. Tom holds a Bachelors degree in Computer Science from Princeton.
